Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Prior graduate work including general psychology areas and empirical master's thesis are evaluated to determine if certain requirements can be waived. Core clinical psychology courses are generally not waived. Students with prior master's degree may shorten their time to course work completion by as long as 1 semester. However, if there is a prior master's thesis, students can further shorten their time to complete the research requirements.
